WHAT YOUR TEEN GAINS

01 A head-start for the workforce of tomorrow
The AI skills employers will expect, learned early.

02 A stronger college application
Real, demonstrable AI projects that stand out.

03 Use AI to 10X time and productivity
Work smarter on schoolwork, research, and ideas.

04 Sharp judgment, not blind trust
Knowing when to rely on AI and how to catch its mistakes.

05 A real, portfolio-ready AI project
Built start to finish, with zero code.

06 Confidence to use AI responsibly
Safe, ethical habits that last beyond the program.
